EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney John Schaefer on 3/08/2006.

The application has been amended as follows:

- In claim 6 line 4 "tow" has been changed to "two".
- In claim 8 line 1, the dependency has been changed from "7" to "6".
- In claim 9 line 1, the dependency has been changed from "7" to "6".

The above changes have been made to correct inconsistencies created by the order of dependency.

RESPONSE TO ARGUMENTS

Applicant's arguments have been fully considered and are persuasive with respect to the amended claims. The examiner acknowledges that the applicant's argument to the rejection of prior claim 3 is persuasive. Lai does not teach that the edges of the first parts (side plates in Lai) distal from the second parts (bottom plate in Lai) are joined together, and that Lai and Haushalter cannot be properly combined

Art Unit: 2835

together without modifying the teaching of Lai. Therefore, amending independent claim 1 to include all the limitations of claim 3, makes all the claims allowable.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Prior art does not disclose a heat sink made up a sheet which is bend to form a plurality of first parts and second parts, where the second parts are disposed between any two first parts, where the junction between the first and second parts bend at an angle enabling the two first parts to be connected together, and first connecting members disposed on the first part at the end distal to one end of an adjacent second part, and a second connecting member disposed on the corresponding position of another first part, wherein the first and second connecting members are respectively disposed on the corresponding positions of the ends of any two adjacent first parts for connecting the ends of the first parts together.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
